“Genome organization of the Trypanosoma cruzi complex”

A Global Network for
Neglected Tropical Diseases
Chagas disease | Leishmaniasis
<https://ntd-network.org> | @FillingV

22nd March 2022
4:00 PM Pak time (8 AM Uruguay time)

Register to attend:

<https://forms.gle/EHhxBace4tzz7t1e7>

Prof. Dr. Carlos Robello
*Faculty of Medicine, Universidad de la República
(Uruguay) and Principal Investigator at the
Institut Pasteur de Montevideo*

NTDs (neglected tropical diseases) are a major health and economic burden in Organization of Islamic Cooperation (OIC) member states. The control and elimination of NTDs requires both a scale-up and integration of global mass treatment programs, along with new tools and technologies to tackle these diseases. COMSTECH, in collaboration with A Global Network for Neglected Tropical Diseases (known as the NTD Network (<https://ntd-network.org/>)), is launching a virtual lecture series for researchers across the Moslem world and beyond.
