

Dr. Maqsood Ahmed

Associate Professor/Principal Investigator,
Materials Chemistry Laboratory
Institute of Chemistry,
The Islamia University of Bahawalpur,
Pakistan.

Field: Physical Chemistry, X-ray crystallography, Materials Chemistry.

Dr. Maqsood Ahmed is serving as Associate Professor in the Institute of Chemistry at the Islamia University of Bahawalpur (IUB) since 2013. He is also the Principal Investigator of the Material Chemistry Laboratory, IUB. Furthermore, he is a visiting faculty at the International Centre for Chemical and Biological Sciences (ICCBS). Dr. Maqsood completed his Ph.D. in 2012 from the Université de Lorraine, Nancy, France on 'Fully Funded Overseas Scholarship' by the Higher Education Commission of Pakistan.

Dr. Maqsood has contributed to various national and international training workshops and schools. Furthermore, he has attended over 20 national and international conferences. In terms of research, Dr. Maqsood has over 24 publications.

Moreover, Dr. Maqsood is co-advisor to the IUB science society and is a member of the National Adhering Body to the IUCr (International Union of Crystallography). He is also the focal person and mentor for 'Science Talent Farming Scheme' of the Pakistan Science Foundation. In addition, he was officially nominated from Pakistan to Participate in the 65th Lindau Nobel Laureates meeting in 2015.
