

**Prof. Dr. Khalid Saeed Khan**

*Distinguished Investigator*, University of Granada, Spain  
Former Editor-in-Chief of British Journal of Obstetrics and Gynecology  
Founder of Core Outcomes in Women's and Newborn Health (CROWN)  
**Field:** Health Sciences

Khalid Saeed Khan is Distinguished Investigator (Beatriz Galindo programme) at University of Granada, Spain. With an h-index>70 he has published over 400 peer-reviewed papers and supervised 25 higher-degree theses. He graduated in medicine from the Aga Khan University in its first health faculty cohort. Higher training at McMaster University led him to an academic career, focusing on patient-oriented clinical research. Khalid has contributed to many trials and meta-analyses: has run 48 primary research trials, recruiting 979,242 participants, and has published 149 systematic reviews, collating data from 6415 studies with 68,798,079 participants. He is the lead author of 'Systematic Reviews to Support Evidence-Based Medicine', which won a BMA Medical Book award. He is former Editor of BJOG, EBM-BMJ and BMC Med Educ. His Core Outcomes in Women's and Newborn Health (CROWN) initiative was awarded a BMA Strutt and Harper grant to help reduce research waste.
